

### Amerada Hess Reports Estimated Results for the Third Quarter of 2005

October 26, 2005

NEW YORK, Oct 26, 2005 (BUSINESS WIRE) -- Amerada Hess Corporation (NYSE: AHC) reported net income of \$272 million for the third quarter of 2005 compared with income of \$178 million for the third quarter of 2004. See the following page for a table of items affecting the comparability of earnings between periods. The after-tax results by major operating activity in 2005 and 2004 were as follows:

Three months ended Nine months	S	led eptember (unaudit	ed	)		(unaud	ite	d)

Exploration and production earnings were \$235 million in the third quarter of 2005 compared with \$155 million in the third quarter of 2004. The Corporation's oil and gas production, on a barrel-of-oil equivalent basis, was 312,000 barrels per day in the third quarter of 2005 compared with 323,000 barrels per day in the third quarter of 2004. Hurricane activity in the Gulf of Mexico reduced third quarter 2005 production by approximately 9,000 barrels of oil equivalent per day. This decrease is estimated to have reduced third quarter exploration and production earnings by approximately \$25 million. The Corporation also incurred incremental third quarter expenses related to the hurricanes of \$14 million, after income taxes.

In the third quarter of 2005, the Corporation's average worldwide crude oil selling price, including the effect of hedging, was \$35.74 per barrel, an increase of \$9.01 per barrel from the third quarter of 2004. The Corporation's average United States natural gas selling price was \$8.53 per Mcf in the third quarter of 2005, an increase of \$4.13 per Mcf from the third quarter of 2004.

Refining and marketing earnings were \$125 million in the third quarter of 2005 compared with \$85 million in the third quarter of 2004. The increase in refining and marketing earnings was due to higher refining earnings, reflecting improved margins, partially offset by lower marketing results.

The following items, on an after-tax basis, are included in net income in the third guarter and first nine months of 2005 and 2004 (in millions):

Three months ended Nine months ended

The corporate tax charges in the third quarter and first nine months of 2005 represent income tax provisions related to the repatriation of foreign earnings under the American Jobs Creation Act of 2004.

Capital and exploratory expenditures in the third quarter of 2005 amounted to \$699 million compared with \$381 million in the third quarter of 2004. Of these amounts, \$674 million and \$363 million in the third quarter of 2005 and 2004, respectively, related to exploration and production activities.

Note: In addition to the income statement effects of the open hedge positions indicated above, the Corporation has after-tax deferred realized losses of \$45 million as of September 30 included in accumulated other comprehensive income (loss). These after-tax losses will reduce income in the fourth quarter. There were no natural gas hedges outstanding at September 30.
