Registrant's Telephone Number, Including Area Code: (212) 997-8500

N/A (Former Name or Former Address, if Changed Since Last Report)
Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:
☐ Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
□ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
□ Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§ 230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§ 240.12b-2 of this chapter).
Emerging growth company \square
If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. \Box

Item 2.02. Results of Operations and Financial Condition.

On July 25, 2018, Hess Corporation issued a news release reporting estimated results for the second quarter of 2018. A copy of this news release is attached hereto as Exhibit 99(1) and is hereby incorporated by reference.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibit

99(1) News release dated July 25, 2018 reporting estimated results for the second quarter of 2018.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: July 25, 2018

Title: Senior Vice President and Chief Financial Officer

HESS CORPORATION

News Release

HESS REPORTS ESTIMATED RESULTS FOR THE SECOND QUARTER OF 2018

Key Highlights:

- Estimate of gross discovered recoverable resources on the Stabroek Block, offshore Guyana (Hess 30 percent), increased to more than 4 billion barrels of oil equivalent; total discoveries to date have established the potential for up to five FPSOs to produce over 750,000 barrels of oil per day, gross by 2025
- Announced an eighth oil discovery on the Stabroek Block, offshore Guyana at the Longtail-1 exploration well located approximately five miles to the west of the Turbot-1 well
- Announced an agreement to sell our joint venture interests in the Utica shale play in eastern Ohio for net cash consideration of approximately \$400 million, with closing expected by the end of the third quarter
- Completed the purchase of \$500 million in common stock, as part of our previously announced \$1.5 billion share repurchase program, bringing total purchases to \$1 billion; the remaining \$500 million is expected to be completed during 2018
- Completed \$500 million of total debt repurchases as of quarter-end, including purchases of approximately \$110 million of public notes during the second quarter
- Restarted production at the Conger Field in the Gulf of Mexico in mid-July following repair of the third-party operated Enchilada platform

Second Quarter Financial and Operating Highlights:

- Net loss was \$130 million, or \$0.48 per common share, compared with a net loss of \$449 million, or \$1.46 per common share, in the prior-year quarter
- Adjusted net loss was \$56 million, or \$0.23 per common share, in the second quarter of 2018
- Oil and gas production exceeded guidance: net production averaged 247,000 barrels of oil equivalent per day (boepd), excluding Libya; Bakken production was 114,000 boepd
- Exploration & Production capital and exploratory expenditures were \$525 million in the quarter, compared to \$528 million in the prior-year quarter
- Cash and cash equivalents, excluding Midstream, were \$2.5 billion at June 30, 2018

NEW YORK, July 25, 2018 — Hess Corporation (NYSE: HES) today reported a net loss of \$130 million, or \$0.48 per common share, in the second guarter of 2018, compared to a net loss of

\$449 million, or \$1.46 per common share, in the second quarter of 2017. On an adjusted basis, the Corporation reported an after-tax net loss of \$56 million, or \$0.23 per common share, in the second quarter of 2018. The improved after-tax adjusted results reflect higher realized crude oil selling prices, lower operating costs and depreciation, depletion and amortization expense, partially offset by lower production volumes, primarily due to asset sales.

"We delivered strong operational performance in the quarter – exceeding our production guidance – and further focused our portfolio with the sale of our joint venture interests in the Utica," Chief Executive Officer John Hess said. "In June, we announced another significant oil discovery at Longtail, offshore Guyana, and in July we increased the estimate of gross discovered recoverable resources for the Stabroek Block to more than 4 billion barrels of oil equivalent."

After-tax income (loss) by major operating activity was as follows:

A reconciliation of net income (loss) attributable to Hess Corporation to adjusted net income (loss) attributable to Hess Corporation is provided on page 7.

Exploration and Production:

Exploration and Production (E&P) net income in the second quarter of 2018 was \$31 million, compared to a net loss of \$354 million in the second quarter of 2017. On an adjusted basis, second quarter 2018 net income was \$21 million. The Corporation's average realized crude oil selling price, including the effect of hedging, was \$62.65 per barrel in the second quarter of 2018, up from \$45.95 per barrel in the year-ago quarter. Noncash losses on crude oil hedging contracts reduced second quarter 2018 after-tax results by \$47 million. The average realized natural gas liquids selling price in the second quarter of 2018 was \$20.51 per barrel, versus \$14.85 per barrel in the prior-year quarter, while the average realized natural gas selling price was \$4.12 per mcf, compared to \$3.19 per mcf in the second quarter of 2017.

Net production, excluding Libya, was 247,000 boepd in the second quarter of 2018, compared to 294,000 boepd in the prior-year quarter. Excluding assets sold and Libya, second quarter 2017 net production was 237,000 boepd. Libya net production was 18,000 boepd in the second quarter of 2018, compared with 6,000 boepd in the year-ago quarter. Our full year production guidance, excluding Libya, continues to be 245,000 boepd to 255,000 boepd, even with the loss of volumes from the sale of our Utica joint venture interests.

Excluding items affecting comparability of earnings between periods and including Libya, cash operating costs, which include operating costs and expenses, production and severance taxes, and E&P general and administrative expenses, were \$13.37 per barrel of oil equivalent (boe) in the second quarter, down eight percent from \$14.60 per boe in the prior-year quarter due to increased low-cost production from North Malay Basin, cost savings initiatives, and sales of higher cost assets. Second quarter 2018 cash costs per boe were negatively impacted by deferred production related to downtime at the third-party operated Enchilada platform in the Gulf of Mexico. E&P income tax expense increased in the second quarter of 2018, compared to the prior-year quarter, primarily due to higher Libya sales volumes.

Operational Highlights for the Second Quarter of 2018:

Bakken (Onshore U.S.): Net production from the Bakken increased six percent to 114,000 boepd from 108,000 boepd in the year-ago quarter due to ongoing drilling activity and improved well performance. Production in the second quarter of 2018 was impacted by weather-related downtime in June. The Corporation operated an average of four rigs in the second quarter, drilling 28 wells and bringing 27 new wells online. The Corporation has added a fifth rig and plans to add a sixth rig early in the fourth quarter of this year. Full year production guidance for the Bakken remains 115,000 boepd to 120,000 boepd.

Gulf of Mexico (Offshore U.S.): Net production from the Gulf of Mexico was 47,000 boepd, compared to 51,000 boepd in the prior-year quarter. Production from the Conger Field, which has been shut-in since the fourth quarter of 2017 due to the Enchilada platform shutdown, resumed in mid-July. At the Stampede Field (Hess operated - 25 percent), four production wells are currently online, and two additional wells are expected to be brought online before the end of this year.

North Malay Basin (Offshore Malaysia): Net production from North Malay Basin (Hess operated - 50 percent) was 26,000 boepd, compared to 1,500 boepd in the prior-year quarter. Production from the full field development commenced in July 2017.

Guyana (Offshore): At the Stabroek Block (Hess - 30 percent), operated by Esso Exploration and Production Guyana Limited, the Longtail-1 exploration well encountered approximately 256 feet of high-quality, oil-bearing sandstone reservoir and is the eighth significant oil discovery on the Block. The well is located approximately five miles west of the Turbot-1 well and the operator estimates combined gross recoverable resources of Turbot and Longtail to exceed 500 million boe. Additional prospects to be drilled in this area could increase this estimate. The Stena Carron drillship will next drill the Hammerhead-1 well located approximately nine miles southwest of the Liza discovery. The operator plans to add a third drillship in the fourth quarter that will operate in parallel to the Stena Carron to explore and appraise the Block's numerous high value prospects.

The Liza phase 1 development sanctioned in June 2017 is progressing rapidly. Development drilling began in May and construction of the floating production, storage and offloading vessel (FPSO) and subsea equipment is under way, laying the foundation for first production of gross 120,000 barrels of oil per day (bopd) by early 2020. Phase 2 of the Liza development, which is targeted for sanction by

the end of this year, will use a second FPSO with gross production capacity of approximately 220,000 bopd – start up for Phase 2 is expected by mid-2022. Planning is underway for a third phase of development, which is targeted to be sanctioned in 2019 and will use an FPSO designed to produce approximately 180,000 bopd gross, with first production as early as 2023. The collective discoveries on the Stabroek Block to date are estimated to contain gross recoverable resources of more than 4 billion boe and have established the potential for up to five FPSOs producing over 750,000 bopd, gross by 2025.

Midstream:

The Midstream segment, comprised primarily of Hess Infrastructure Partners LP, our 50/50 midstream joint venture, had net income of \$30 million in the second quarter of 2018, compared to net income of \$16 million in the prior-year quarter, reflecting higher throughput volumes and lower operating costs.

Corporate, Interest and Other:

Net results were an after-tax expense of \$191 million in the second quarter of 2018, compared to an after-tax expense of \$111 million in the second quarter of 2017. On an adjusted basis, second quarter 2018 results were an after-tax expense of \$107 million. Adjusted corporate expenses were down \$11 million in the second quarter of 2018, compared to the year-ago quarter, as a result of lower employee related costs and professional fees. In the second quarter of 2018, interest expense was \$7 million higher than the year-ago quarter primarily due to lower capitalized interest.

Capital and Exploratory Expenditures:

E&P capital and exploratory expenditures were \$525 million in the second quarter of 2018, compared to \$528 million in the prior-year quarter. The 2018 activity primarily reflects ongoing drilling in the Bakken, increased Liza Phase 1 development activity, exploratory well costs in Canada, and lower expenditures in the Gulf of Mexico. For full year 2018, our E&P capital and exploratory expenditures guidance remains unchanged at \$2.1 billion.

Midstream capital expenditures were \$84 million in the second quarter of 2018, up from \$20 million in the year-ago quarter. In addition, Midstream investments in its 50/50 joint venture with Targa Resources were \$17 million in the second quarter of 2018.

Liquidity:

Net cash provided by operating activities of \$425 million in the second quarter of 2018 is up from \$165 million in the second quarter of 2017. Net cash provided by operating activities before changes in working capital was \$463 million in the second quarter of 2018, which includes a reduction of \$58 million resulting from the accrued settlement of legal claims related to former downstream interests, compared with \$362 million in the year-ago quarter.

In the second quarter of 2018, the Corporation completed its previously announced \$500 million accelerated share repurchase transaction, bringing total share repurchases under the Corporation's \$1.5 billion repurchase program to \$1 billion. The Corporation also purchased approximately \$110 million principal amount of its public notes in the second quarter which brings total debt repurchases to \$500 million.

Excluding the Midstream segment, the Corporation had cash and cash equivalents of \$2,488 million and total debt of \$5,457 million at June 30, 2018. The Corporation's debt to capitalization ratio was 36.2 percent at June 30, 2018 and 36.1 percent at December 31, 2017.

The Midstream segment had cash and cash equivalents of \$420 million and total debt of \$982 million at June 30, 2018.

In the third quarter, the Corporation expects to complete the sale of our joint venture interests in the Utica shale play for net cash consideration of approximately \$400 million with an effective date of April 1, 2018.

Items Affecting Comparability of Earnings Between Periods:

The following table reflects the total after-tax income (expense) of items affecting comparability of earnings between periods:

	 Three Months Ended June 30, (unaudited)			Six Month June (unauc	30,
	2018	2017	2	2018	2017
		(In	millions)		
Exploration and Production	\$ 10	\$ -	- \$	(27)	\$
Midstream	_	_	_	_	_
Corporate, Interest and Other	(84)	_	_	(81)	_
Total items affecting comparability of earnings between periods	\$ (74)	\$ -	- \$	(108)	\$ —

Exploration and Production: Second quarter 2018 results included an after-tax gain of \$10 million (\$10 million pre-tax) associated with the sale of our interests in Ghana.

Corporate, Interest and Other: Second quarter 2018 results included an after-tax charge of \$26 million (\$26 million pre-tax) related to the premium paid for debt repurchases, and an after-tax charge of \$58 million (\$58 million pre-tax) resulting from the settlement of legal claims related to former downstream interests.

The following table reconciles reported net income (loss) attributable to Hess Corporation and adjusted net income (loss):

Hess Corporation will review second quarter financial and operating results and other matters on a webcast at 10 a.m. today (EDT). For details about the event, refer to the Investor Relations section of our website at **www.hess.com**.

Hess Corporation is a leading global independent energy company engaged in the exploration and production of crude oil and natural gas. More information on Hess Corporation is available at **www.hess.com**.

Forward-looking Statements

Certain statements in this release may constitute "forward-looking statements" within the meaning of Section 21E of the United States Securities Exchange Act of 1934, as amended, and Section 27A of the United States Securities Act of 1933, as amended. Forward-looking statements are subject to known and unknown risks and uncertainties and other factors which may cause actual results to differ materially from those expressed or implied by such statements, including, without limitation, uncertainties inherent in the measurement and interpretation of geological, geophysical and other technical data. Estimates and projections contained in this release are based on the Corporation's current understanding and assessment based on reasonable assumptions. Actual results may differ materially from these estimates and projections due to certain risk factors discussed in the Corporation's periodic filings with the Securities and Exchange Commission and other factors.

Non-GAAP financial measure

The Corporation has used non-GAAP financial measures in this earnings release. "Adjusted net income (loss)" presented in this release is defined as reported net income (loss) attributable to Hess Corporation excluding items identified as affecting comparability of earnings between periods. "Cash provided by (used in) operating activities before changes in operating assets and liabilities" presented in this release is defined as Cash provided by (used in) operating activities excluding changes in operating assets and liabilities. Management uses adjusted net income (loss) to evaluate the Corporation's operating performance and believes that investors' understanding of our performance is enhanced by disclosing this measure, which excludes certain items that management believes are not directly related to ongoing operations and are not indicative of future business trends and operations. Management believes that cash provided by (used in) operating activities before changes in operating assets and liabilities demonstrates the Corporation's ability to internally fund capital expenditures, pay dividends and service debt. These measures are not, and should not be viewed as, a substitute for U.S. GAAP net income (loss) or net cash provided by (used in) operating activities. A reconciliation of reported net income (loss) attributable to Hess Corporation (U.S. GAAP) to adjusted net income (loss), and a reconciliation of net cash provided by (used in) operating activities (U.S. GAAP) to cash provided by (used in) operating activities before changes in operating assets and liabilities are provided in the release.

Cautionary Note to Investors

We use certain terms in this release relating to resources other than proved reserves, such as unproved reserves or resources. Investors are urged to consider closely the oil and gas disclosures in Hess' Form 10-K, File No. 1-1204, available from Hess Corporation, 1185 Avenue of the Americas, New York, New York 10036 c/o Corporate Secretary and on our website at www.hess.com. You can also obtain this form from the SEC on the EDGAR system.
